

CUSTOM BRACING IS AVAILABLE AT THE NIAGARA CANINE CONDITIONING CENTRE

We are excited to announce that we are now able to offer custom bracing again. After a lot of research, we have found a Canadian company, K9 Orthotics, that makes excellent custom braces. K9 Orthotics is based in Nova Scotia and has affiliates across Canada and Europe.

One of the biggest challenges we have had with bracing is the stifle. Braces tend not to stay up and therefore are not effective in supporting the joint. K9 Orthotics makes a custom harness with the brace, which allows freedom of movement while the brace stays in place.

We will be doing the casting at the Centre and then sending the cast to K9 Orthotics where they will make the brace and send it back to us to fit to the patient. They are hoping for a 2-3 week turnaround

time.

The most common braces made by K9 Orthotics are:

- Stifle
- Elbow
- Hip Orthosis
- Hyperextension or Hyperflexion for Carpus or Tarsus
- Rigid Carpal or Tarsal Orthosis
- Articulating Carpal or Tarsal braces
- Controlled ROM Carpal or Tarsal Orthosis

If you have any questions please do not hesitate to call us at 289-362-5900 or e-mail info@canineconditioningcentre.ca

Veterinary referral preferred.
